

**Four Corners Air Quality Task Force
Oil and Gas Work Group Conference Call Notes**

May 16, 2007

3:30 PM

Participants

Jen Mattox, CDPHE-APCD; Suzanne Holland, Chevron; Dave Brown, BP; Bruce Gantner, ConocoPhillips; Kellie Skelton, Energen; Walt Brown, USFS/BLM; Joe Deliwich, EPA R8; Ron Freisen, ENVIRON; Andy Berger, NMED-AQB.

Agenda Items

1. Review of differing opinions

The Oil and Gas Work Group met via conference call to follow up their May 9 meeting and complete discussion of differing opinions that were inserted in drafted mitigation options, with an emphasis of stationary RICE options since they received the most comments.

On May 11, several members of the Oil and Gas Work Group had convened separately to review and discuss comments. Suzanne Holland had forwarded to Jen Mattox edited comments with highlighting: green for their comments, their authorship, red font for suggested alternative wording, and blue highlight for other/unknown author. Jen forwarded this document to the larger work group. On May 16, the work group focused on reviewing Suzanne's highlighted documents, focusing on stationary RICE and exploration.

Jen Mattox made changes per discussion on the conference call.

On page 28 of the RICE options, the blue highlight should be green.

Time was limited. Suzanne, Bruce, and Dave plan to meet again to make sure all desired comments are submitted by the deadline of May 30. Dave will follow up with Casey Osborn, EMIT, regarding comments to the SCR-related options on which Casey was the original author.

The Work Group expects 3-5 additional mitigation option papers by May 23.

Call adjourned at 5 PM.
